ACE CLUB LMS V2 · 01 NOVEMBER 2026

A simpler way to teach.
A clearer place to learn.

Revised wireframes incorporating the product reviewer's annotated review and discussion notes.

18 review screens · Course packages, learning states and Admin publishing

Design prototype only. Fictional data and simulated interactions.
Production, Preview configuration, migrations and student data are unchanged.
Open index.html for clickable selectors, calendar and upgrade dialogs.

MY LEARNING / LIVE CLASSES

Your next live class, in one place.

Live attendance and recordings are separate routes. Learn using either, or both.

November evening · your enrolled batch

Active registration

SUBJECT / LIVE CLASS	DATE & TIME · IST	JOIN
Quant Ratios and mixtures	5 Nov · 6:00–7:30 PM	Join class · demo

Only your eligible live registration exposes a join action. Course access alone is not live registration.

After your live class

Class completion, recording availability, feedback and attendance are separate states. A missed class may be reported honestly; watching a recording is not required to submit “I didn’t attend”.

Open session resources

View all subjects

Design review · The demo student is registered only in the Quant live batch. Verbal/DI course entitlements do not expose their private live links.

MY LEARNING / QUANT

Quant 4 · Ratios and mixtures

All sessions

Four resources, in a clear order. Open whichever you need.

01 PRE-CLASS READ

Before class: Ratios and mixtures

▶ Read the preparation

02 RECORDING

Ratios and mixtures · guided lesson

ONE SHARED SESSION RECORDING

Illustrative player · no video or tracking

03 POST-CLASS READ

After class: Ratio practice and recap

▶ Read the recap

04 WORKSHEET

Ratios and mixtures: guided practice and worked answers

Session material · 8 practice questions

Open worksheet

Design review · No redundant right rail or step-navigation strip. Reading opening is visual only. The shared recording is reused across applicable offerings and batches.

MY LEARNING / QUANT

Quant 4 · Ratios and mixtures

Four resources, in a clear order. Open whichever you need.

All sessions

01 PRE-CLASS READ

Before class: Ratios and mixtures

▼ Read the preparation

A ratio compares quantities in the same unit. Start by checking what each number represents.

> For every two parts concentrate, add three parts water. There are five equal parts altogether.

A 500 ml mixture at 2:3 contains 200 ml concentrate and 300 ml water.
See the worked example

02 RECORDING

Ratios and mixtures · guided lesson

ONE SHARED SESSION RECORDING

Illustrative player · no video or tracking

03 POST-CLASS READ

After class: Ratio practice and recap

▶ Read the recap

04 WORKSHEET

Ratios and mixtures: guided practice and worked answers

Session material · 8 practice questions

Open worksheet

Design review · No redundant right rail or step-navigation strip. Reading opening is visual only. The shared recording is reused across applicable offerings and batches.

QUANT 4 / FEEDBACK

A little feedback. Then keep learning.

One session-referenced response. Your current session resources remain accessible.

Ratios and mixtures

Did you attend the live class?

- ◯ **I attended**
- ◯ **I didn’t attend**

What helped you understand the topic?

Illustrative question; final form supplied by Product reviewer

Non-attendance is a valid response. You do not need a recording to submit it.

Simulate form submission | **Return to current session**

Design review · Tally form integration is future work. All submission and confirmation states here are simulated; no real feedback record or unlock is created.

ADMIN / BATCH PUBLISHING

Review once. Publish with confidence.

Back to draft

Check the exact affected offerings and placements before confirming.

November evening · Full Course

Publication scope

This batch and its offering outline

Affected scope

- November evening batch
- Full Course broad outline
- Published Quant 4 session references

Live event: 2026-11-05 · 18:00 IST Registration: 8 maximum

Protected material retains its own publication controls. Publishing does not grant access, claim attendance or create a recording.

☐ I checked the content, schedule and affected scope.

Confirm publish **Student preview**

Student-facing order

1. Before class: Ratios and mixtures
2. Ratios and mixtures · recording
3. After class: Ratio practice and recap
4. Guided practice · worksheet

Unpublishing removes the selected published scope and retains the draft and audit history.

Design review · The scope selector expands the target preview before confirmation. All writes remain local simulations.

REVIEW NOTES

What changed, and what still needs a decision.

This prototype is a design deliverable; it does not claim future features are active in the LMS.

Three tiers, four offerings

The annotated PDF asks for three package choices. The Phase 1 exit gate retains four offerings.

Resolved in this design: 1 / 2 / 3 individual-subject package tiers, plus a clearly distinct Full Course option.

Feedback trigger

The annotated PDF proposes an **80% watched** threshold. This is recorded for owner confirmation, not implemented as a new policy.

A section lock prevents more recording navigation; delayed live completion events may still create multiple obligations.

Class corrections

Completion reversal needs a rule for existing feedback locks. Preserve submissions and audit history.

The prototype does not invent an automatic unlock or claim a completed class proves attendance.

Phase boundaries

Phase 1 catalogue/access screens are separately deployed in Preview. Batch scheduling/publication belong to Phase 2; checkout to Phase 3; resume and feedback-gated learning delivery to Phase 4. This offline design changes none of those backend states.
